Subject: RE: charge code for Cements Creek/Animas

.....
.....

Enforcement Confidential/FOIA Exempt/Privileged

Enforcement prefers and highly recommends that the team entirely charge as (standard operating procedures) to Upper Animas SSID: 08-5M. The parameters the Upper Animas SSID: 08-5M will capture almost all the work we do for enforcement and cost recovery purposes. The only exception that Richard and I see right now is Steve's work on the Red and Bonita Mine (08-UP). There might be other exceptions that come up, please let Richard and I know, and we will work with you and the team. Thanks, Mike

Subject: charge code for Cements Creek/Animas

Hi All

Can someone please confirm the accounting codes I am to be using for the work in the Silverton area? I am being told by Russ we have transitioned to the Upper Animas site (forgot the code) from Upper Cement Creek (A830) except for work that is done in Cement Creek which will remain A830. I do not think this is an easily workable solution since we do work on both the Upper Animas and Cement Creek simultaneously – not to mention the lower Animas. If these are to remain distinct then please let me know what percentage should be charged where.

Additionally, I do not know where to charge the Residential work.

Thanks
